VIBE CODING HACK

Power Learn Project

Problem:

Traders and small business owners struggle with manual, disorganized financial tracking due to;

- Lack of real-time insights into income, expenses, and profitability.
- Complexity of existing solutions that are time consuming, and lack flexible input methods.

Solution:

A web application that;

- A user-friendly web application for efficient income and expense management.
- Offers multiple, flexible input methods: voice, photo (receipt scanning), and manual entry.
- Provides a comprehensive analytics dashboard for clear financial visualization.
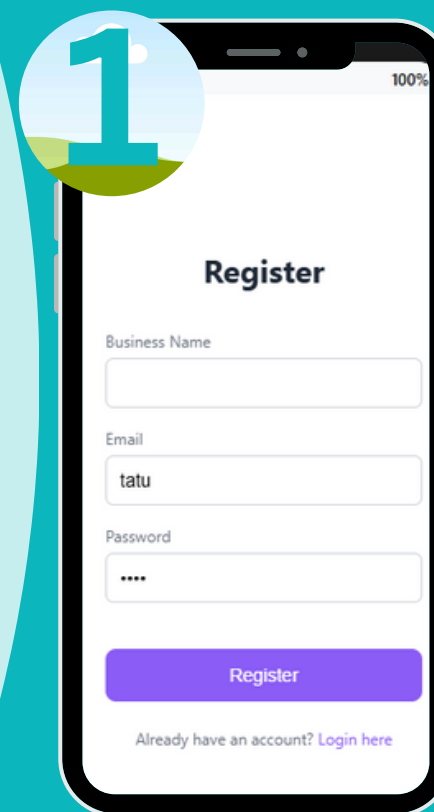

Why is you BisWatch

- Multi-modal Input: Voice and photo input significantly streamline the data entry process, saving time and reducing friction.
- Instant Visual Analytics: A dedicated dashboard with charts for trends and category breakdowns offers immediate, actionable insights.
